FOR THE PURPOSES OF DETERMINING THE NEXT BEST PERFORMANCES TO REGION AND STATE

In an attempt to make sure that all times taken at the various Little Athletics NSW championship carnivals are processed as consistently as possible, it has been agreed to make adjustments as follows: -

- ♦ Any times for events up to and including 400m, taken with stopwatches, will have an adjustment made to the time.
- ♦ This will be an addition of 0.24sec for all track events up to and including 200m.
- ♦ For events over 200m and up to and including 400m, an addition of 0.14sec will be added.

Please note that the time published on the official result will be the time shown by the stopwatch, with the time shown in 100th of a second.

The additional time adjustment detailed above will be added when the progressions are processed at the Little Athletics NSW office.

Any timing gates that are used that have the start not triggered by the gun (ie. triggered manually by the gates operator) will also have the same adjustment made.

In explanation for the process—times taken manually with the stopwatch are quicker as there is a reaction time not picked up by the timekeeper.

PORT HUNTER ZONE CHAMPIONSHIPS 2017-2018

CANTEEN ROSTER

Each centre is responsible for providing workers to serve in the canteen during the championships. This is the sole fundraising activity and all centre's share the profits, thus the following roster allocated times to all centre's based on their athlete participation. Please ensure that all your helpers are on duty at least ten (10) minutes prior to their rostered time.

A minimum of 2(as per below) people will be required for each hourly session.

SATURDAY	DUTY - TIME	SUNDAY
Port Stephens (2)	8.30 - 9.30	Thornton (1)/Woodberry (1)

Region 3, 5 and 8.

These 3 regions have 2 zones in each region. In those Zone Championships (ie Western Plains, Western Ranges, Northern Metropolitan, North East Metropolitan, Southern Metropolitan, Inner City) finals in laned track events are to be made up of **8 athletes**, except in the following cases.

- If only 9 athletes arrive at the call room from entries to heats then the heats may be collapsed to a final of a maximum of 9 athletes.
- If after resolving a protest in an earlier heat an additional athlete is added to the final then this can result in 9 athletes being in the final.

Selection of next best performances

- Performances in heats cannot be considered in selection of next best performances.
- Performances from all competitors in a field event will be assessed for next best performances. This means that an athlete who does not reach the second round (or final 3 trials) may still perform a next best performance.
- Performances from all competitors in all events from 800 metres upwards will be assessed for next best performances.

FOR THE PURPOSES OF DETERMINING THE NEXT BEST PERFORMANCES TO REGION AND STATE

(USING MANUAL TIMING)

In an attempt to make sure that all times taken at the various Little Athletics NSW championship carnivals are processed as consistently as possible, it has been agreed to make adjustments as follows:-

- ◆ Any times for events up to and including 400m, taken with stopwatches, will have an adjustment made to the time.
- ◆ This will be an addition of 0.24sec for all track events up to and including 200m.
- ◆ For events over 200m and up to and including 400m, an addition of 0.14sec will be added.

Please note that the time published on the results at the Zone and/or Region Championships will be the time shown by the stopwatch, with the time shown in 10th of a second. This is only for events that have been started using manual timing. The official results published on the LANSW website will show 'h' next to track events started manually, ie. by stopwatch and timing gates triggered by the gates operator.

The additional time adjustment detailed above will be added when the progressions are processed at the Little Athletics NSW office.

Any timing gates that are used that have the start not triggered by the gun (ie. triggered manually by the gates operator) will also have the same adjustment made.

In explanation for the process—times taken manually with the stopwatch are quicker as there is a reaction time not picked up by the timekeeper.
